WESTERN TURF WAR NOW OVER

Congressman Joseph L. Rhinock in Role of Peacemaker.

LATONIA WILL CONDUCT AN INDEPENDENT MEETING

Outlaw Rule Wiped Out and Dates Fairly Di-

CINCINNATI, June 2.- The turf war in the West is over and Congressman Joseph L. Rhlnock is the peace-maker.

Latonia will conduct an independent meeting. The end came quickly, almost too fast for the majority to comprehend how it was possible, for the fight is all off, and the documents signed and filed

The document in question is an agreement between Joseph L. Rhinock and Louis Cella, which wipes out the outlaw rule down the line, divides the dates where both sides have race horses, and enforces the forfelt list and gives recognition to the rulings imposed for fraudu lent practices. In addition, it provides for throwing open the gates of Latonia

What Agreement Means.

That means that the American Turf association and the Western Jockey club will both go ahead until some day when the western turf will be reunited under one head. It will then be made the right sort of a turf-governing body, and it will be neither this man's nor that man's organization.

This was not Mr. Rhinock's first at-

be neither this man's nor that man's organization.

This was not Mr. Rhinock's first attempt to settle the differences. He made strenuous efforts to head off the conflict before it began, and when this falled he lined up with his associates and aided them with his money and his influence.

Last fall he met Louis Cella, who held the turf situation in the palm of his hand, and Mr. Rhinock made him several fair propositions to settle the turf war and avoid a clash.

Mr. Cella thought well of the propositions, and after conferring with his associates he declared he would only accept them under the condition that the racing must be under control of the Western Jockey club. That concluded the negotiations. The war continued, and caused Mr. Rhinock to do a lot of thinking.

ing. The breeding interests in Kentucky are large, much capital is invested in great stock farms, and many men are employed and interested in it. As the life of racing was hanging by a slender thread and was even threatened in the State of Kentucky. Mr. Rhinock rose to the occasion and the sport of kings is safe.

Renewed Negotiations.

Renewed Negotiations.

Coming in contact with Cella he renewed the negotiations, and last Saturday the documents wiping out a forther turf clash were signed. Mr. Rhinock had been planning for some months to end the turf war in some way. While in New York City he encountered Louis Cella, of the other side. They talked over different matters, and the conversation drifted gradually into racing, and, of course, touched on the turf war.

"Well, Cella," said Rhinock, "the war is still going ahead, and there is no telling how long or how far it will go."

"That's very true," said Cella, "but what about it?"

"Well, vou remember the propositions I made you last fail?" said Rhinock.
"They still go."

"I will take the matter under consideration," said Cella, "and you will hear from me soon."

Conference Is Sought.

Conference Is Sought.

That was several days ago. Later/Mr. Rhinock received a telegram asking for conference at St. Louis. This Mr. Rhinock declined, and named Pittsburg is the meeting place, and it was finally settled to meet at Chicago.

settled to meet at Chicago.

The men, accompanied by their attorneys, met there, and outlined terms of agreement. "No conflict at New Orleans and no outlaw rule wherever Cella was in control.

Before this meeting, Mr. Rhinook talked the matter over with some of his associates of the American Turf association, but Cella talked and acted only for himself.

but Cella talked and acted only for himself.

The agreement was drawn up and
signed the next day in Covington. It is
binding only as far as Rhinock and Cella
are concerned, but it is easy to see that
neither will be turned down by their respective organizations.

Mr. Rhinock controls the Latonia track,
and has the support of the Louisville
and City Park, these three tracks being
practically the backbone of the American
Turf association.

What Cella Controls.

What Cella Controls.

Mr. Cella controls the Fair Grounds at Mr. Cella controls the Fair Grounds at New Orleans, Douglas Park and Groose Point. Mr Cella signed the document which practically ends the turf war simply as Louis Cella, but says the West-ern Jockey club will indorse his stand. Latonia will be conducted independently of both turf organizations. It will recog-nize the trainer and Jockey licenses of both, and Mr. Rhinock pledges himself that all horsemen will receive a square deal.

deal.

Douglas Park will not open until Latonia closes. Harvey Meyers, representing Mr. Rhinock, drew up the agreement and everything was settled when Mr. Cella and Tilles came to this city, accompanied by their attorney. Judge L. H. Bond.

Cash Prizes for Winners.

NEW YORK, June 2.—By adopting the plan, long in vogue in England, of offering cash prizes for winners, the New Rochelle Yacht club has made a departure that is meeting with the approval of many yachtenien. The club points to the fact that, while prize cups are pretty and of some intrinsic value most of the men who own fast boats have a surfeit of cups—so many, in fact, that they are sometimes puzzled to know where to put them.

Tribune Special Sporting Service.

sometimes puzzied to know where to put them.

Again, it is seldom that the owner of a winning yacht is able to show the prize cup that he won in a race until several months after the race—in other words, not until the club is ready to deliver it to him. If he receives a cash prize when the race is over, even if it is less in amount than the value of the cup, in nine cases out of ten he will be better satisfied, and if he chooses to purchase a cup or a piece of plate with it he can select something that will not be a duplicate of a trophy he already has.

Harvard Football Comment.

Pribune Special Sporting Service

NEW YORK, June 2.—Foreign advices state that Crown Prince Frederick William of Germany will attend the German-American races off Marblehead next September, whether the boat he is building to contest for the right to represent Germany wins in the trial races at Kiel in July or not.

The Prince is keenly interested in the racing of small beats, and his attendance at the German-American races is another evidence of the Kalser's temper toward yachting and the German-American entente cordiale in the sport. It is not settled whether or not the Prince will sail his boat Angela II. himself or give the tiller to another Kiel yachtsman.

AUTOMOBILES IN NEW FIELDS OF USEFULNESS

Handy for Funerals in New York and Relief Work in San Francisco.

Tribune Special Sporting Service. Every day new points of value in the erstwhile despised automobile are coming to light. Americans will always re-member the valuable service rendered by the "chug-chug" machine in the recent San Francisco disaster, when railroad and street railway tracks were twisted and turned, making traffic impossible. During those first terrible days automobiles were the sole means of transportation, and without them the relief workers would have been in a sorry plight.

East Follows the West.

The East, not to be outdone by the West, is also discovering new uses for which the automobile may be employed. The following story indicates that the automobile may yet become an effective weapon 'n preventing certain kinds of

wtapon in preventing trikes of the drivers, Tled up by the strike of the drivers. Undertaker John J. Meagher of 168th street and Third avenue, on Monday last transported the members of the family of Patrick Fanning of No 887 East 169th street, to Calvary cemetery in a big automobile. Fanning, who was 66 years of age, was a well-known resident of the Bronx.

No Carriages to Be Had.

No Carriages to Be Had.

"It was impossible for the undertakers to secure carriages to convey mourners to the cemetery and rather than postpone the funeral he rented the automobile, paying the top-notch price of S an hour for it. The body of the decased was placed on the shoulders of six stalwart men and carried from his late home to St. Augustine's Roman Catholic church, one thousand feet distant, where a mass or requiem was celebrated over it. On the way down the avenue, friend and stranger alike doffed their hat in respect to the dead as the body was borne by.

Oddest Funeral Ever Seen.

Oddest Funeral Ever Seen.

"In many respects it was the oddest funeral ever seen in that part of the city. The services over, the casket was placed in a covered undertaker's wagon and, followed by the big auto, proceeded to the constant. to the cemetery.

IN BAD CONDITION.

Roseben's Feet Are Still Giving Him Much Trouble.

Much Trouble.

Tribune Special Sporting Service.

NEW YORK, June 2.—Roseben, who pulled up quite lame after his race in the Brooklyn, was in pretty bad condition. The trouble was with his forefeet, and is a recurrence of an aliment that has given Roseben more or less trouble since his two-year-old year. Last summer, at Sheepshead Bay, when he was beaten by Jocund, Roseben's feet were bad, but he rounded to all right in time to make his great end-of-the-season record at Belmont Park.

Enoch Wishard, who trained Roseben as a two-year-old and a three-year-old, experienced much difficulty with the son of Ben Strome on this account, and it was partly due to this that he was raced so little in the Drake colors.

May Return to Farm.

May Return to Farm.

May Return to Farm.

Frank Weir, who trains Roseben now, said this week that he would give the horse a good long rest and hoped that he would come around all right. He believes that with care Roseben may yet show a return to his best form.

The passing of Roseben would be regretted by the racing public. The big si rinter is one of the most popular horses in the public eye. The management of the horse this season has not been pleasing to the public. Conceding that a man has a right to do what he likes with his own, race-goers would have been generally much better pleased had Roseben been reserved for sprint races, especially after he showed no disposition to go farther than seven furlongs in good company.

Heavily Back Horse.

Heavily Back Horse.

Heavily Back Horse.

Mr. Johnson possibly felt justified in starting Roseben in the Brooklyn, because of the value of the race and because he had backed him at a long price in the future books to win a tidy sum. Mr. Johnson, it is thought, was sorely in need of money that would have come into his possession had Roseben won the famous Brooklyn, for he has backed the big horse in a prodigal manner this season, in his losing races as well as the winning ones.

Another Good One.

Another Good One.

Another good horse of other seasons that will not be seen again under the colors is Harry Payne Whitney's Tanya. The daughter of Meddler bowed a tendon at Brookdale Farm and has been thrown out of training, and she will be bred to one of the sires at Brookdale.

Tanya will be missed, as good horses are none too pientiful this season, the stars having fallen by the wayside in an alarming manner. While Tanya was hardly the equal of her companion, Articl, she was a first-class two-year-old last season, and won the historic Belmont ttakes, being the second filly to achieve this honor in all the years the race has been run. Her subsequent racing includes a second to Sysonby in the realization. After running unplaced in the Saratoga handleap, Tanya became afflicted with the skin disease that worked such havoc with horses last year, and has not been seen in public since.

Walter Light Ailing.

Walter Light Ailing.

Water Light also is on the alling list. He pulled up lame after a gallop at Gravesend, though it is possible that his injuries are only of a light nature that may keep him out of training for no great while. His stable companion, Olseau, also is on the shelf, and it seems that the big events of the immediate future must be measured by the standard of the Brooklyn handicap, so far as the class of the contestants is concerned.

American Power Boat Schedule.

American Power Boat Schedule.

Tribune Special Sporting Service.

NEW YORK, June 2-The American Power Boat association's schedule of races to be held this summer has been announced, and, while it is not as long a one as in former years, it shows that the interest in the sport is still great. There will be few races exclusively for racing boats, but there are many for cruising craft, and good cruisers are now in demand by lovers of the power boat. The schedule is as follows:

June 9-Stamford Y. C.

June 2-Knickerbocker Y. C., long distance race. Marblehead, Mass., to College Point, N. Y.

July 4-Indian Harbor Y. C.; Corinthian Y. C. of Stamford; Red Bank Y. C. Cape May Y. C.; Tarrytown Y. C.; Yonkers Y. C., July 14-Cape May Y. C., Stamford Y. C., July 14-Cape May Y. C., Stamford Y. C., August 4-Rochester Y. C., Cape May Y. C.; Corinthian Y. C. of Stamford.

August 18-Cape May Y. C.

August 18-Cape May Y. C.

August 18-Cape May Y. C.

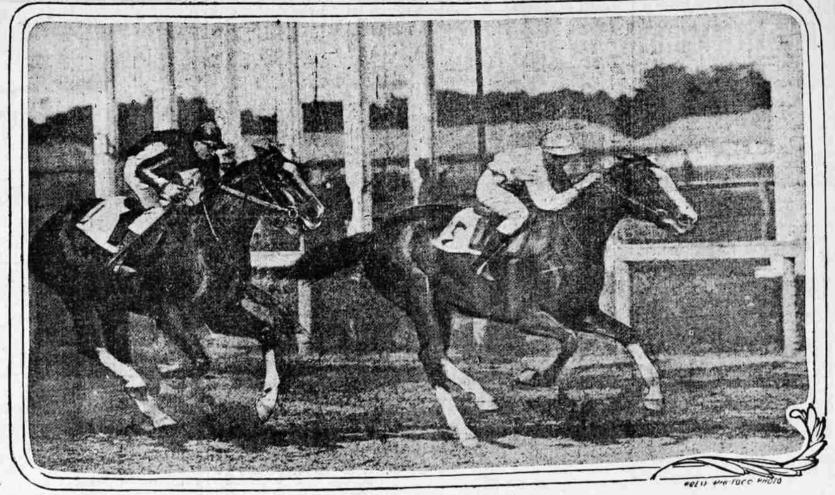

August 23-Corinthian Y. C. of Stamford.

September 1-Cape May Y. C.

September 1-Cape May Y C
September 3-Tarrytown Y C : Audubon Y C : Red Bank Y C : Yonkers September 15-Middletown Y. C.; Knick-erbocker Y. C.

Prince Will See the Races.

Tribune Special Sporting Service. CAMBRIDGE, June 2.—The Harvard Rulletin, in commenting upon the action of the overseers of the university in permitting football for the coming fall, says, "A great deal more depends upon the spirit in which the game is played than on the rules which govern it. The fun-

SUPERMAN FINISHING IN FRONT.

Keene's Superman finishing in front of colts that cost fortunes, Demund and W. H. Daniel, in Expectation stakes. The Expectation stakes furnished almost as big a disappointment for the talent as the Brooklyn Handleap. In this race Paul Rainey's \$45,000 colt Demund and E. S. Burke, Jr.'s, \$35,000 colt, W. H. Daniel, were beaten by J. R. Keene's Commando colt Superman, an outsider in the betting at 10 to 1.

SHAMROCK MAY requires physical combat and almost puts a premium on hidden violations of the

a premium on hidden violations of the rules.

"Many of these violations in past years have not been seen by the officials and many others have been seen and not punished. Even under the new rules the umpire and referee will not be able to detect all the unfair things that can be done. It is not surprising under these conditions that the players on the college teams, carried away by the supreme desire to win, and encouraged by their coaches, have committed acts which many of them, in their calmer moments, have regretted.

"We believe we represent the true Harvard sentiment when we say that in the future Harvard players must be taught that it is better to lose a football game than to try to win it by unfair methods, whether they can be seen by the officials or not. It will not be easy to lay down such a course of action, or to follow it on the field, but unless this spirit is shown by the players, the game of football will not last many years, and it ought not to."

ought not to

Russian Breeders to Meet. Pribune Special Sporting Service.

Tribune Special Sporting Service.

ST. PETERSBURG, June 2.—The association of Russian breeders is seizing the opportunity of the assembling of the first Douma, or national assembly, for bringing the claims of its members before the representatives of the country, basing its demands for reform on the plea that forse-breeding is one of the most important branches of agricultural industry for the empire.

Russia offers a wast field for breeding horses for the home and foreign markets, and the Government is asked to assist breeders in obtaining more remunerative prices for their produce by offering them every facility and by enfranchising them from the threatened control of the Ministry of War.

The Government Stud committee is not all that fancy painted it, since the officials appointed have been mostly officers of the rank of Generals, affected with that Itching palm which has for so many years been the plague of the land of the Czaf.

years been the plague of the land of the Czat.

Horses of the market value of \$250 or \$300 have cost under the actual official management of the State something like \$750 to \$1000, and a grant of some \$1,000,000 is required annually for the upkeep of certain establishments which, owing to their unproductiveness, are white elephants to the empire.

It is suggested that the Government state committee shall be disestablished

phants to the empire.

It is suggested that the Government Stud committee shall be disestablished and that all questions relative to the breeding of horses shall be entrusted to the Ministry of Agriculture. the Ministry of Agriculture

Sir Thomas Lip-

MAY AGAIN ATTEMPT TO LIFT AMERICA'S CUP

Matter, However, Is Really Up to King Ed-

NEW YORK, June 2-In the midst of the preparations for an active yacht racing season there is an undercurrent of keen interest in the plans of Sir Thomas Lipton The Irish baronet is sure to play an important part in American yachting in the next year, and what particular form his activity will take is a matter of considerable moment to yachting interest.

From the other side of the Atlantic comes persistent reports of his purpose to challenge for the America's cup and again of his participation in the King's cup race with Shamrock III on August next off Newport. It is the latter proposition that is one of the more pertinent interest, since there is no probability of any development in the America's cup challenge until the fall, and no possibility of a race for the cup until the fall of 1907 at least.

In Basin at Brooklyn.

No move has been made by Sir Thomas beats, we to prepare the Shamrock to race since America.

NELSON AND HERRERA. Snapshots of the two light-weight puglilists who were to have fought for the championship at Los Angeles on Friday last. Both of them had dogs for mascots while training. The upper photograph is that of Nelson and the lower of Herrara

SHAMROCK MAY

TRY IT AGAIN

Keen Interest Taken in Plans of

Sir Thomas Lip
Illa informal letter of inquiry in the early apring as to her eligibility and to the possibility of getting a crew for her. She lies at Marine Basin in Brooklyn, and though dismantied, it would mean less than thirty days' work to prepare her for tuning up. Those who are familiar with her in South Brooklyn say that despite her long idleness, she is in remarkable good shape, and able to take part in any race even as early as August, with excellent prospect of success, even despite her handicap under the new rule of measurement. That the American public would like to see her in the race is undoubted.

Change for Sir Thomas

Chance for Sir Thomas.

Chance for Sir Thomas.

It appears to be an excellent chance for Sir Thomas to vindicate his contention and the contention of the British yachtsmen in general that the America's cup should be a contest for yachts rather than for racing machines. The Shamreck is less of a machine than the Reliance, despite the necessity of meeting the extremes of a Herreshoff design under the old condition. Accordingly she rates better under the new rule, and has a correspondingly better chance in a race against new boats like J. Rogers Maxwell's Queen.

against new boats like J. Rogers statewell's Queen.

If she should compete for the King's cup and wip, she would, while it reality proves nothing, place the America's cup committee in a peculiar position if it persists in the indicated intention to insist on racing for the cup under the old rule.

Up to King Edward.

Really the matter is up to King Edward. Those American yachtsmen who are closest to Sir Thomas believe that he would like to race the boat for the trophy. The crew problem, they say, is, while difficult, not insurmountable. King Edward has only to express his desire to have Sir Thomas to either enter the boat or abandon all such desire. The question which King Edward must answer in indicating his desire is whether he would prefer to have Shamrock III win the cup in the first race, which he would like undoubtedly, or whether he might not by such a victory defeat the real purpose of the cup, namely, to promote the entente cordinie of American and British yachtsmen.

Would Act as Stir.

Would Act as Str.

If the King imputes to the American people any such narrow and ungenerous feeling as hat a victory for the Shamrock III hight produce antagonism bright yachting, he misjudges the American people woefully. It would simply act as a sit to greater activity in boat tuilding to retrieve an even applied conclusion that England can produce better brais, whether cruiser or racer, than America.

RETURNS TO MONTREAL

Little Canadian Tells How He Won Great Marathon Race.

MONTREAL, June 2.-William J. Sherring, the Canadian long-distance runner who won the Marathon race of twentyrunners from all over the earth, has re turned to this city. He is a trim little Canadian, about five feet six inches tail, stocky, with a mildly beaming blue eye and a manner that is devoid of conceit.

'I was pretty confident that I would win." he said recently when the enthusiastic group of Canadians who met him let him go long enough so that the newspaper men could have a word with "I figured out that if I could only hold back until the other fellows tired a bit I could beat them in the scramble "It came out just that way. Only they

tired earlier than I thought they would For the first ten miles Daly, the Irishman, and Blake, the Australian, made the pace, and kept ahead. I ran with Spring, the Pastime Athletic club man of New York. We did the first six miles in thirty minutes, and the ten in fifty six minutes. At ten miles I was half a mile behind Daly and Blake.

Then Let Them Have It.

"Then I let them have it. I sprinted most of the way from the eighth to the twentieth mile. I passed Daly and Blake at twelve miles. They were walking. When they saw I was up with them they gave me a chase, but I had a mile the best of them at sixteen miles. "Then I let them have it. I sprinted best of them at sixteen miles.

Took Water Sparingly.

They had men on horses following us to give us water. It was pretty hot, about 59 in the shade, I guess. I took only two small sips of water the whole day. You bet I wanted more, but I was afraid that if I bit myself go I'd founder.

founder."
Sherring said that the Greeks could not have cheered him more when he finished if he had been running under the flag of that nation. The King put the crown of laurel upon his head, and afterward talked with him for an hour.

WILLIAM NOT INTERESTED.

Across in Matter of Races. Pribune Special Sporting Service.

BERLIN, June 2 - Racing has commenced at the headquarters of the Union club at Hoppegarten, but sport in Germany has not been able to enlist the sympathies of the Emperor further than that as King of Prussla, he is the owner of that most useful institution, the Graditz stud.

Crown Prince Is Sport.

Happily, the Crown Prince has shown a disposition to take interest in sport, and the examples he has given of his predilection for the turf may attract fresh blood and infuse further life into racing, which should become an important industry in a country that has such an extensive frontier, necessitating an efficient supply of horses for army purposes. Prince Frederick Wilhelm, with Prince Leopold and Duke Adolph Fredrich of Mecklenburg, were among the recent guests at the jubilee gathering of Karlshorst.

The Crown Prince visited the race
